12. Sew 4 sets of the Step 11 Geese together, as shown. Add (1) G 4-1/2" $\times 10-1 / 2^{\prime \prime}$ to the two stacks of 5 . Attach (1) G 4-1/2" $\times 16-1 / 2^{\prime \prime}$ to the stack of 8 . Stitch (1) G 4-1/2" $\times 8-1 / 2^{\prime \prime}$ to the stack of 12 .
13. Looking at the photo, position the long Step 12 units to the sides of the Step 6 center unit. Then sew the shorter units to the top and bottom.
14. Attach D $1-1 / 2^{\prime \prime} \times 40-1 / 2^{\prime \prime}$ borders to both sides of the runner, followed by $\mathbf{D}$ $1-1 / 2^{\prime \prime} \times 22-1 / 2^{\prime \prime}$ borders to the top and bottom.
15. Complete the top by stitching the $3-1 / 2^{\prime \prime}$ $\times 42-1 / 2^{\prime \prime}$ Outer Borders to the long sides, and then the $3-1 / 2^{\prime \prime} \times 28-1 / 2^{\prime \prime}$ Outer Borders to the top and Bottom. Press well.

FINISHING: Cut batting and backing 3" larger than top on all sides. Layer backing, batting and top together and baste or pin. When quilting is completed, trim excess batting and backing. Bind as usual.

Finished Quilt Size $28^{\prime \prime} \times 48^{\prime \prime}$

## *SEW STRIPS VIA SHORT ENDS

This project uses precise $1 / 4^{\prime \prime}$ seams. To test your seam allowance, accurately cut (2) $1-1 / 2^{\prime \prime} \times 3^{\prime \prime}$ rectangles. Stitch together along the $3^{\prime \prime}$ length. At the midpoint, measure across the unit. It should be exactly $2-1 / 2^{\prime \prime}$ wide. If not, adjust your seam allowance and repeat.

## QUILT ASSEMBLY

1. Place a $\mathbf{A} 2-7 / 8^{\prime \prime}$ square, right sides together, with the same size square of $\mathbf{B}$. On the back side draw a diagonal line. Stitch an accurate $1 / 4^{\prime \prime}$ to each side of the drawn line. Cut on the drawn line, and press toward A. Use 6 of each fabric to create 12 triangle squares that measure $2-1 / 2^{\prime \prime}$ from raw edge to raw edge.

2. Watching the placement of the angles, stitch 4 of the Step 1 units together. Make 3.

3. Diagonally stitch a B 2-1/2" square across the top left corner of a C 4-1/2" $\times 3-1 / 2^{\prime \prime}$ rectangle. Trim the excess from the corner, and press toward the corner. Make 12.

4. Diagonally stitch an A 2-1/2" square across the top right corner of the Step 3 units. Trim the excess, and press toward the corner. Make 12.

5. Stitch the 3 stars together in a vertical row. Add D 1-1/2" x 30-1/2" to top and bottom, followed by $\mathbf{D}$ $1-1 / 2^{\prime \prime} \times 12-1 / 2^{\prime \prime}$ to both sides.

6. Place (2) G 2-7/8" squares face down on two opposite corners of an A 5-1/4" square. Draw a diagonal line through the center. Stitch an accurate $1 / 4^{\prime \prime}$ on each side of the drawn line.

7. Cut the Step 7 unit apart on the drawn line and press the $\mathbf{G}$ triangles as shown.
8. Position a G 2-7/8" square right sides together on $\mathbf{A}$ corner of each Step 8 unit. Draw a diagonal line from corner to corner. Stitch an accurate $1 / 4^{\prime \prime}$ seam along both sides of the drawn line.

9. Cut on the drawn line of the Step 9 units, and press the $\mathbf{G}$ fabric out. This unit measures $4-1 / 2^{\prime \prime} \times 2-1 / 2^{\prime \prime}$ from raw edge to raw edge.

10. Repeat Steps $7-10$ using the remaining A $5-1 / 4^{\prime \prime}$ square, (2) B $5-1 / 4^{\prime \prime}$ squares, (2) E 5-1/4" squares, and (2) F 5-1/4" squares. You will have a total of 32 geese - 8 of each color.
