**Construction:**
This project uses precise 1/4" seams. To test your seam allowance, accurately cut (2) 1-1/2" x 3" rectangles. Stitch them together along the 3" length. At the midpoint, measure across the unit. It should be exactly 2-1/2" wide. If not, adjust your seam allowance and repeat.

1. Diagonally stitch a 1-1/2" square of Damask or Wave across a 1-1/2" end of 3-1/2" x 1-1/2" Chevron. In each of the 4 colors, stitch half in one direction, and half in the other direction. Trim the excess and press gently toward the Damask or Wave.

2. Stitch a 1-1/2" x 3-1/2" Same color, opposite print piece between a mirror image pair of Step 1 units, exactly as shown.

3. Lay out all the 3-1/2" squares from Step 2, the Fussy Cut squares, and the 3-1/2" squares of Chevron. Keep the same four Step 2 units surrounding each Fussy Cut square - OR - scramble them. It's your choice. The 3-1/2" x 9-1/2" Chevron pieces go around the edges. Sew the quilt together in rows. Press carefully.

4. Sew the 1-1/2" Inner Border pieces together, end to end. Attach them to the sides and the top and bottom.

5. Attach the Tulip Stripe Borders. Begin and end at the 1/4" seam allowance at each corner, and leave an 8" miter 'tail' extending.

6. Place a corner to miter on your ironing board, with the border that is lying horizontal extending to the right, and the one that is vertical on top of it and extending up. Fold the top extending border diagonally under and position so it is exactly on top of the one extending to the right. When satisfied it is correct, smash it with the iron.

7. Use a pin or two to hold the mitered corner in place. From the underside, stitch in the pressed crease. Check to see that it's correct and if it is, trim the excess from the seam to 1/4". Press these seams open. Repeat Steps 6-7 for each of the corners to be mitered.

8. Layer your quilt and prepare to quilt your masterpiece. You might like to detail the images.

9. Bind with the 2-1/2 Medallion Tonal strips, following the instructions with the Binding Miter Tool. There is also a video demo of this terrific tool at www.YouTube.com
